A meeting of the members of the Democra Central Committee appointed by the Eighth of January Convention for the Seventh Congresional District, is requested at the Courier office, in this city, on Friday next, April 15th, at 4 o'clock P. M. The following gentlemen compose the Committee:

J. B. Lancaster, Isaac Caldwell, and R. T. Durrett, of Louisville; Wm. Merriweather and J. W. Graham, of Jefferson; Dr. G. Baker and M. C. Taylor, of Shelby; S. E. DeHaven, of Oldham, and J. G. Leach, of Henry.

Attention Democrats! There will be a meeting of the Democrats of the First and Second Wards on Friday night, April 15th, at Schwing's Tavern, on Jefferson street, to the Congressional Convention; also, to nomifull attendance is requested.

PROCEEDINGS OF THE GENERAL COUNCIL.-This ody met last night, and transacted a great deal of business, though not much of general importnce. The bonds of the recently elected city officers were submitted and accepted. A number of reports and suggestions from the City Engineer were submitted and referred to appropriate com-

rdinance fixing the annual salaries of the city officers, as follows:

Clerk of the Board of Alderman, and Clerk of the Common Council, \$1,150 each; Auditor, \$1,400; Treasurer, \$1,500; Assessor, \$1,400; Street Inspectors, \$700; City Engineer, \$1,800; Assistant Engineer, \$700; Keepers of the Workhouse and Pest House, \$600 each; Keeper of the Alms House, \$600; Superintendent of Hospital, \$600; Physician of Eastern District, \$450; Physician of Western District, \$400; Interpreter of the City Court, \$300; Market Masters r market houses between Third and Sixth streets, \$800 each; between Tenth and Eleventh streets, \$400; Portland, \$100; No. 3, \$400; No. 5, \$350; sexton of Oakland Cemetery, \$5,00; day and night watchmen, \$2 per day while on duty. Salaries to be paid monthly.

This bill came before the Board of Aldermen, and was referred to the Committee on Finance. Both Boards concurred in an ordinance requir ng owners and occupants of houses to construct gutters below, or even with the pavement, for conducting water or slops from their houses to the streets. Fine of from \$5 to \$10 for every twentyour hours they neglect to do so after notification-A large number of licenses were granted to cofee houses and taverns.

The General Counsel adjourned to meet on the 28th of this month.

THEATRE-BENEFIT OF HENRY SEDLEY .- Mr. Sed. ey's first benefit in Louisville will take place to-night, when he will appear, in conjunction with Mrs. Sinclair, in the beautiful drama of "The Marble Heart," produced, in its present altered and improved form, for the first time in Louis ville. Great care and attention has been bestowed James Gordon Bennett might realize something upon this drama, and we do not doubt but that handsome in the presentation of his famous its production will reflect greater credit on the management and the actors than any other piece of the season. The magnificent tableaux, the beautiful statuary, the elegant pic-nic scene will claim particular attention, while, if we are to trust the Cincinnati critics, the wonderful contrast of the two characters of Marco the coquette, in the hands of the magnificent and elegant Mrs. Sinclair, and the pure and simple hearted Marie, as performed by the charming Ida Vernon, will give scope to some of the finest acting we have had for many weeks. It will be remembered that Matilda Heron has a miserable adaptation of this beautiful drama, in which she performs both parts. The contrast, when played by two persons, is doubly enhanced, and the beautiful lesson it contains more powerfully impressed. The fate of the coquette-as shown in Marco's character-the momentary power of gold over mind, and the latter's final triumph, are all given with the spirit of master minds in both author and actors. Mr. Sedley appears as Phidas, the sculptor, and as Raphael Duchalet, the artist. His taste and judgment is to be much commended in this choice of a drama, which, while giving scope to admirable acting, beautifully displays the passions of human nature; its love, hate, wrath and coldness, at the same time representing in the beautiful style of illuminated tableaux, the arts of painting

THE COURT OF APPEALS CRITICISED .- Last nigh in the Board of Common Councilmen, Councilman Anderson submitted a report respecting streets and side walks, which was very severe apon the Court of Appeals, and criticised in scathing terms a late decision of that august body. His report showed that the Court of Appeals had overruled both Webster and Worcester in their definition of the word "pavement." According to the report of the Councilmen, we come to the conclusion that the Council of Appeals was to the conclusion that the Council of Appeals was HAVING lately made some improvements in the man-ufacture of our white lead, we now offer to the trade our several brands of that article, which we war-rant to be equal in quality to any made sitker East or West. to the conclusion that the Court of Appeals was more nice than wise, and not very wise at that.

THE OLD RELIABLE ROUTE.-It will be seen by the advertisement in another column, that our old and well known fellow-citizen, J. C. Buckles, Esq., is still at his post, and as agent for the Erie Railroad and its connections, is prepared to forward freights to and from the East, at astonishingly low prices. He is also agent of the Valentine Express Company. Of course Mr. B. will WATERS FUX.

call the attention of grocers to their large sale of fine gunpowder teas, sardines, manufactured tobacco, and other groceries, this morning, (Friday) at 10 o'clock, at their auction rooms. They will also sell an invoice of looking glasses, mahogany frames, with a variefy of German fancy goods and knife cutlery; also a lot of evergreens and Mountain Holly running roses.

WE have not made any late changes in the manufacture of our White Lead, but continue to furnish the same, of the uniform and superior quality, which, in an extensive consumption here and elsewhere, in house and steamboat painting, has been so universally and highly approved for DURABILITY, BEAUTY OF FINISH, ECONOMY OF USE, AND THE COMBINED QUALITIES which make a first rate paint. The large number of first-class steamers now running to this port, and which have been nainted with this Lead, afford a sufficient test of the quality and durability of this article, and furnish the best evidence to consumers of satisfaction in the use of it.

Orders solicited, quality warranted, and price as low as the best brands of the Western Manufacturers.

A FAST FUNERAL.-Yesterday we noticed a hearse, followed by two hacks, going down Main street at a brisk trot. It was the funeral of a poor fellow who had kept an eating cellar on Water street, and had died suddenly from the effects of DRUG AND PRESCRIPTION STAND, bad whisky. He lived a fast life, and had a fast

A Good Suggestion .- Last night, during the session of the Board of Aldermen, Mayor Crawford said that he had noticed on Wednesday night, though dark and rainy, that the street gas lamps were not lighted, and that the same thing had oc-

attracted notice in the proper quarter. The Gas Company are governed in spreading their light by the almanac, and not by the weather. We shall see what Mayor Crawford will do about it,

The Democratic Standard, of Concord, N. I, keeps the following in big letters at the head f its editorial columns:

Democrats, stick to James Buchanan, or we shall all go to h-ll together.—Louisville Journal. A dirtier and more unblushing falsehood was never perpetrated. We exchange regularly with the Standard, and have never seen anything at the head of its editorial columns like the above. The Standard is a very ably conducted National between Hancock and Clay, to appoint delegates Democratic paper, and having always defended the constitutional rights of the South with rare enernate candidates for magistrate and constable. A gy and skill, it ought, we should think, to be exempt from such unfair and unjust assaults from Southern papers.

> FATAL Accident -Y esterday morning, the express train from Jeffersonville to Indianapolis, on the Madison and Indianapolis Railroad, met with serious accident. It seems that the high water had floated a tree against a culvert, and so impaired it that the weight of the engine caused it to give way, precipitating the locomotive and tender into the creek. this great enterprise can but be gratified at the intelligence conveyed in late letters from Dr. Fowlkes, dated at Marshall, Texas. These letters give the most cheering indications of his continued confidence in the justice of his course before the courts of Texas, and this feeling has been shown to have been well grounded by the telegraphic intelligence encouring that the suits brought

HEAVY ROBBERY .- On Saturday, the Butterworth D. Bond, President and Cashier of the Allenton Railroad Company, whose office is in Wall street, was broken open and \$112,000 of Wall street, was broken open and \$112,000 railroad bonds and checks stolen, besides \$2,000 worth of diamond jewelry. John G. McManny, a boy only 14 years old, who was employed as clerk by Mr. Bond, was arrested on suspicion. He confessed to having stolen the bonds and checks, but denied knowing anything about the missing jewelry. He showed where he had hid the bonds and checks, and they were recovered. BLIZABETHTOWN, April 14, 1859. Editors Louisville Courier: The peculiar adap-tation of James Guthrie for the responsible and high position of President of the United States, were not lighted, and that the same thing had occurred several times of late. He requested the proper committee to call the attention of the Gas Company to the fact. The Mayor remarked that such omissions on the part of the Gas Company were inexcusable, and a swindle upon the city.

ernment could be safely and confidently deposited during the four years to come.

In the management of the Treasury Department alone, during the late administration of General Pierce, Mr. Guthrie displayed a firmness, a stern determination of purpose, and a financial ability, that wor for him an enduring reputation, and turned the eyes of the whole nation upon him as the man to follow up and add to the success of the administration of Mr. Buchanan.

On the 8th inst., seven negroes, belonging to the estate of Peter Todd, deceased, were sold bringing prices ranging from \$580 to \$1,200. On the 12th, twenty-five acres of land, belonging to the estate of Elizabeth Williams, deceased, situated eight miles from town, brought \$40 per acre. A negro woman, diseased, and her two children, brought \$1,000, and a little girl, \$300. Major Berry officiated as auctioneer in both instances.—Mountain Democrat, yesterday.

The Fruit.—Notwithstanding the heavy frosts and cold weather of last week, we learn that in some localities in this county, there is still a good prospect for peaches. The late apples are still uninjured, and the early sorts only partially. If there is no more frost, the indications are that we will have apples, a few peaches, cherries, strawberries, raspberries, &c., with which to regale our tastes this summer and fall.—Bowling Green Gazette, 13th. THE FRUIT .- We feared the cold of last week had destroyed the peach crop entirely, but we are pleased to learn that there is still a chance for some of that delicious fruit. One branch was some of that delictous fruit. One branch was examined by an experienced farmer of this county with the following result: The branch bad altogether twenty-four buds, sixteen of which were sound and healthy, eight dead. If the trees ererywhere are in the same condition we will have a fine crop. It is generally the case that not more than two-thirds of the buds come to maturity even when not injured. The apple trees

PANIC IN A CHURCH-TWO CHILDRAN TRAMPLE TO DEATH-THIRTY PERSONS INJURED. - About half past 4 o'clock yesterday afternoon, during the services in the church of the Holy Cross (Catholic,) in Forty-second street, near Eighth avenue, a lighted candle on the altar communicated fire to a curtain, and an alarm of fire was instantly giva curtain, and an alarm of hre was instantly given, creating a great panic among the congregation. The church was densely crowded at the time. There was an instantaneous rush for the doors from all parts of the building. The rush on the stairs was so great, that the narrow passage way was completely blocked up, and a human pyramid of fifty or a hundred men, women, and children, were piled up at the foot, from which proceeded groans, shrieks and frantic cries.

Some policemen soon reached the scene, and after a time, succeeded in restoring comparative order. Two children were dug out of the bottom of the heap, with their legs and arms broken, and so badly bruised and trampled upon that they can-not possibly survive. Their names are not reported. Some twenty or thirty other persons were injured, some of them very seriously. The pastor, the Rev. Mr. McCarthy, tried in vain to restrain the panic-stricken multitude, assuring them that there was no danger. In an incredibly short space of time, the church was cleared, and not till then was order fully restored. No damage was done by fire beyond the burning of the curtain.—N. Y. Post, Monday.

The Southern Pacific Rail Road. On the 6th of this month we received the following telegraphic dispatch from Marshall, the head quarters of the Southern Pacific Rail Road

MARSHALL, TRXAS, April 1.—The State suit for the forfeiture of the Pacific Railway charter has been decided in favor of the old company. Day before yesterday, the 13th inst., we receiv ed the following further information by telegraph:

Marshall, Texas, April 6.—The old and new Pacific Railroad Companies have compromised all difficulties satisfactorils. The old company is to To understand the first dispatch, it is necessary

to know that the State of Texas began suit against the company for a forfeiture of its charter, because it was alledged that the company had failed to report to the State its condition as required by the charter. It was found out upon investigation that the company had made the required exhibit, and that the charge of default had been gotten up by the enemies of the road. Hence the State suit was dismissed as stated by the first telegraphic The second dispatch is well understood by those

who have informed themselves as to the war that has been going on for some time between the old company and the new. Hard times came upon the company and President Yerger made an assignment to get money sufficient to make miles enough of road to secure the charter. Another version of this assignment is that it was made for the purpose of taking the road from the old stockholders, and giving it to a new company. The last version is believed to be the true one by many of the old stockholders, from the fact that a law was gotten through the Texas Legislature to make good the sale of the road under the deed of assignment. If it was the intention of the old stockholders, from the fact that a law was gotten through the Texas Legislature to make good the sale of the road under the deed of assignment. If it was the intention of the deed only to secure the charter, there was no necessity for this law to make forever binding the sale to the new company under that deed of assignment.

Presi-Fowlkes took hold of the thing in earnest, resolved to save the old stockholders, and he has done it. He has whipped out the new company by some means or other, and restored the road to the right-

President Fowlkes deserves the credit of all that has been done. After calling several conventions of the stockholders, and arousing those who had ger in which they were of losing their all, and raising money from them to protect their interests, he went to Texas with a number of associates to assist him in making a compromise with the new company. The multiplicity of counsel, however, failed, and they all went home. President Fowlkes returned to the seat of war to fight the battle according to the dictates of his own clear and unassisted judgment. He has conquered the enemy while thus fighting alone, and therefore deserves all the honor and credit that must spring from the

settlement of the difficulties. Of course these remarks are made upon the supposition that the dispatches we have received, present the case fairly. No particulars are given in the dispatches, and we shall have none antil the Marshall and New Orleans mails reach us. We take it for granted, however, that the and Elisha Head. The following is what they dispatches set forth the result of the negotiations between the old and new companies as it is. and such being the fact, it may be well to recur to figures heretofore made, to show what the old company get by the adjustment of these difficul-

This news is very encouraging to the stockholders whose spirit has been drooping ever since the trouble began between the old and new companies. Is it credible, is it possible that men who in the palmy days of American politics fought under the great Whig leader, and who profess still to revere the cause in whose behalf his splendid energies were spent, will now, before his bones have well mouldered in the dust, and here, in the sacred presence of his tomb, sue merely for the privileges of hanging on to a party which not only hunted his bright and lordy spirit to the grave, but has just struck them scornfully from its "skirts" as "a selfish and disorganizing" excrescence. The following article from that excellent table paper, the Philadelphia Pennsylvaand will be read with interest. It does not offer much hope or consolation to the "Oppositionists," who will find that when the day of trial comes, Pennsylvania will be almost absolutely certain to cast her vote for a national, conservative man for President-such an one, for instance, as Kentucky presents to the nation in the person of Hon. James Guthrie:

THE LATE ELECTION IN PENNSYLVANIA-THE AUSE OF THE DEFBAT OF THE DEMOCRATIC PARTY. The newspaper press, at home and abroad, has beemed with speculation and opinion as to the auses of our defeat at the late election. Some good causes of our defeat at the late election. Some good things have been said in this connection, and some things exceedingly silly and weak. For ourselves, we have prefered to let the smoke and confusion of the battle pass completely away, before proceeding to investigate the causes of the disastrous result. We were convinced, at an early day, that our party had been right soundly thrashed—that Billy Patterson had been struck—but we were in no hurry to identify the perpetrators of the wrong. Some say the Kansas trators of the wrong. Some say the Kansas question did it; others that it was the tariff clamor, and not a few that it proceeded from a spirit of discontent in our own ranks, about the President's appointments and disappointments. The Black Republicans have been endeavoring to make the world believe that they did the whole job The Black Republicans have been endeavoring to make the world believe that they did the whole job themselves. The Americans say it never could have been accomplished without their valuable aid, and Col. Forney is confident that he is the Sparrow that killed Cock Robin. There can be no doubt that our party suffered to some extent from a spirit of discontent about the dispensation of the President's patronage, and still more from our family feud about Kansas; but it is too obvious that the controlling cause was the clamor raised about the tariff—the necessity for protection, &c.—deriving its force and effect from the hard times—the prostration of business, by which thousands and tens of thousands of laboring men have been deprived of employment. We must confess that our first inclination was to conclude that our defeat had been produced by the division in our ranks on the Lecompton question; we attached but little importance to what we had been so often told before the election, that we should lose the votes of thousands of the laboring men in the mining and manufacturing districts, simply because they were out of employment, and felt disposed to hold the party in power accountable. But an examination of the election returns, hasconvinced us that our first impressions were erroneous, and that it was the clamor about the tariff, and not the Lecompton imbroalie that were erroneous, and that it was the clamor about the tariff, and not the Lecompton imbroglio that caused the overthrow of our party. The facts and figures are irresistable on this point. They show to a demonstration that our defeat did not proceed from the anti slavery, but faom the mining and manfacturing districts—from a section of the State which has always stood up firmly amidst the wildest agitation of the slavery question. Take for evidence, the vote in the counties of Allegheny, Beaver, Bradford, Butler, Erie, Elk, Indiana, Jef-Beaver, Bradford, Butler, Erie, Elk, Indiana, Jef-ferson, Lawrence, McKean, Mercer, Potter, Sus-quehanna, Tioga, Venango, Warren, Washington, Wyoming, and Wayne, in all 20, being those in which the question of slavery has uniformly wielded the greatest influence, and it appears that the majority against Mr. Frost, the Democratic

nominee for the Canal Commissioner, and an open and avowed Lecompton man, was but 18,518 votes, whilst the same counties in 1856 cast a majority of of 29,478 against Mr. Buchanan for President, being a Democratic gain in the Free Soil counties of the State since 1856 of 10,660. Then turn to the manufacturing and mining dis tricts, composed of the counties of Carbon, Centre, Chester, Clarion, Huntingdon, Blair, Lehigh Schuylkill, Luzerne, Montgomery, Philadelphia, Montrose, Burks, Dauphine, and Armstrong, 15 in all, and it is seen that in these Mr. Frost was beat en by 6,500 votes, whilst in the same counties in 1856, Mr. Buchanan and 23,661 majority, being a change against the Democratic party of 29,616 votes! By deducting from this aggregate the total majority against Mr. Frost in this State, 25,234, and it will appear that the entire change since 1856 was produced in these fifteen counties.

minee for the Canal Commissioner, and an open

These facts are very conclusive. Whatever may have been the cause, it is true that we gained largely in the North and West on our vote of '56, and lost at a most disastrous rate in the mining and manufacturing districts. Other facts can be given to confirm the view we present; for instance, our neighbor, Col. Martin, who was a canagainst this view, for they were virtually the nom-inees of the Republican party in their respective districts.

Let our friends of the West and elsewhere,

the new company under that deed of assignment.

It matters not, however, now that the contro
term at the second that had we encountered no other lement of opposition than the slavery question some majority. Of this they can be assured.— Whenever, and as often as the contest in Pennsyl vania turns solely upon the abolition question the Democrats will carry the State; and further whenever Mr. Seward becomes a candidate on his blood Rochester pronunciamento, Pennsylvania will reject him by the most decided vote of any State North of Mason & Dixon's line.

Our friends have only to stand firm by their former faith; resort to no expodients to gain strength, but simply stand by the Constitution furnished the money to get the charter and make the first twenty-five miles of the road, to the danger in which they were of losing their all and rais.

THE TRIAL OF HON. DANIEL E. SICKLES Tenth Day's Proceedings. Washington, April 14.—The Court was opened his morning at about the usual hour, but did not this morning at about the usual nour, but did not but commence business till half past 10 o'clock. It is stated that the prosecution was prepared, if Mrs. Sickles' declaration was received, to give in evidence the fact that in January last Mr. Sickles and a lady not his wife remained during a Sickles and a lady not his wife remained during a late. night in Barnum's Hotel, at Baltimore. The register of the hotel was in Court for that purpose It appears, however, from this register that there is first the entry of Mr. Sickles' name in his own handwriting, then the name of Mrs. Dan'l E. Sickles in a different handwriting, neither hers nor his

This preparation shows that if Judge Crawford

had admitted the confession a vast quantity of scandal on both sides would have been brought into the trial, involving persons whose names are not yet mentioned in the affair.

George B. Wooldridge was the first witness George B. Wooldridge was the first witness called for the defense.

Examined by Brady—I reside at No. 34 Twelfth street, Washington; came here in the latter part of November to be present at the organization of the House of Representatives; was a clerk under the clerk of the House; knew Key at that time; are resident to the processing to him but once or twice: on Saturnever spoke to him but once or twice; on Satur

day, 26th, I was in Fifteenth street from very close to 10 o'clock till 2; saw Sickles that afternoon be-tween 4 and 5 o'clock at the capitol. Question-What was, at that time, his appear ance and condition?

Answer—When I went first to him he appeared

different from what he had been the day before; he was in the hall at the rear of the Speaker's chair; we had a conversation; I got him to go into a retiring room and there parted with him after endeavoring to pacify him; he was very much affected and distressed; there was no one with him in that room when I left him; saw him had not room that day, saw him next morning about no more that day; saw him next morning about 10 o'clock in the library of his own house; his eyes were bloodshot and red; he approached me told me he had sent for me to come there; he and been weeping; I remained in the house till all the strangers had left it in the afternoon. -What was his condition during the

Answer-He acted like a man in great sorrow and distress, so much so that I watched for his

oming and going constantly.

Question—Why?

Mr. Carlisle—That is not material. Witness said there was a strange manner about him every time he came into the room where I was; he pressed his hands to his temples and would go over to the secretary and sob; he appeared as if pressed his hands to his temples and would go over to the secretary and sob; he appeared as if he was in great distress; every time these fits came upon him he would clasp his temples and sob and cry, so much so that I told him to give yent to his tears, they would relieve him; he would raise his hands and exclaim sometimes; these fits would take him before he could get to the secretary, where he went as if to hide him-nel, and then he would bow down his head. Witness saw Key passing opposite Sickles' house looking towards it and waved his handker-chief several times; Sickles came into the library where witness was and said that the villain has passed my house; he was very much excited; at-tempted to caim him; he threw off witness' grasp and turned into the hall without a hat; that is

the last I saw of him till he came into the house with the officers. States Rights Convention.

HARRISBURG, April 14.—The Democratic States Rights convention adopted resolutions to the following effect: That we are here to-day to resist every attemp to weaken or overthrow the creed of the Den cratic party, to unite for the purpose of restoring in all their vigor and purity, the great truths that have heretofore made the Democracy the conquering organization who have contributed to welfare of the Union; that this convention most solemnly declares its warm attach-ment to the union of the States, to maintain which it pledges all its powers, and that for this end it is our duty to oppose every infraction of these principles, wh. ch constitute the only basis of that union, because a faithful observance of them that union, because a faithful observance of them can only secure its existence and our public happiness; that we are bound to regard the Administration as having forfeited the confidence of the people, and to denounce it as unworthy of the sopport of the Democratic party; that the attempt of the Administration to disregard the covenant of 1856, and in its stead erect a despotic test to compel obedience to doctrines subversive of Republican liberty, was the work not of the Democratic party, but of men who had resolved Democratic party, but of men who had resolved upon ambitious purposes; that we endorse the principles of a popular executive with the franchises of the people of the States; that we repulate the platform of the convention of March, and that no matter what the decision of the Supreme Court may be on that abstract question, still the right of the people to make a slave territory or a free territory, is perfect and complet under the Nebraska bill. The convention then adjourned sine die.

The Fillibuster Movement.

PHILADELPHIA, April 14.—The Ledger's New York correspondent, speaking of the Cuban evolutionary reports, gives a few facts in regard Fact 1st-On the 28th of March, the bark Giga leared from this port for Havana by Mora & Bros., a Spanish house. The vessel was consigned to W. H. Riversmith, and there is every reason to believe that she had a hundred fillibusers on board, and a liberal supply of arms and

ammunition.

Fact 2d—On the day following the Mazatlan cleared for Fernandina, Florida, by J. Eward & Co. The informant declines to be specific in regard to the real character of this vessel, but intiger the specific part of the specific pa ates enough to justify the suspicion that she is Fact 3d—The principal partner in the firm of Mora, above alluded to, is related by marriage to the famous fillibuster, Gen. Goicouria, the Treasu

This, then, establishes a direct connection tween the barque Giga and the fillibustering interest here, and goes far to strengthen the suspicion that there is really something in the wind. The Spanish Minister is in town, sorely disturbed in relation to these movements. The U. S. Marshal is in great tribulation. He has set a watch upon a complete of schooners at such or off the battery. couple of schooners at anchor off the battery.

tained sanguine hopes of success.

The last accounts report that the Cass-Yrissarri treaty had been ratified by the Congress at Managua and signed by President Martinez with two amendments, viz: that the United States should not land troops in Nicaragua without the special rmission'or invitation of the Government, and out in case of the escape of fillibusters from the inited States naval forces and troops may be anded for their capture. The latter clause seems o neutralize the former.

Madison, April 14.—The engine and baggage car of the passenger train going North, on the Jeffersonville railroad, were precipitated, owing to a bridge over a small stream giving way, into a creek near Amity, at 3 o'clock this morning.— The engineer, Henry Snipes, was instantly killed, and the freman badly inforced

AIR LIGHT.

The Cheapest, most Brilliant, and most Conv Artificial Light in the World. The Cheapest, most Brilliant, and most Convenient Artificial Light in the World.

THE Vesper Gas Light has won for itself a reputation for elegance, economy, safety and simplicity, far beyond any other artificial light. The Vesper Gas flame and fixtures precisely resemble in form those of coal gas; but in brilliancy and purity of light, it possesses a decided advantage over even Louisville coal gas. It requires no chimney; there is no need of daily trimming of wick; and the construction of the fixtures is so simple that it is not liable to get out of order, and a child can manage it readily. The gas burnt in the Vesper fixtures is generated from pure coal oil, without any admixture of alcohol or other foreign ingredient. It is entirely free from odor while burning, as, by a simple contrivance, the vapor of the oil is mixed with the atmosphere, producing perfect combustion and a most intense light. The light has been pronounced, by those who have had it in constant use for months, as most pleasant to the eye while reading or sewing, the re being no flickering or unsteadiness in the flame. The Vesper Gas light is portable, and can be used in town or country—in fact, wherever artificial light is required. The fixtures themselves are adapted in styles to suit all tastes, from the plain single light burner to the most costly chandeller. Each chandeller is perfect in itself; there is no outlay to be made for service pipes. The gas is generated in the burner, and all fixtures, from the cheap single light burner to the expensive chandeller, are miniature gas works in themselves. They are sold at prices which do not exceed the cost of ordinary gas fixtures of similar styles and ornamentation. A price list will be sent to any address on application.

any address on application.

MERCHANTS visiting Louisville should not fail to procure the Vesper Gas fixtures for their stores. CHURCHES, HOTELS, PUBLIC HALLS AND PRIVATE RESIDENCES throughout the State can now be fitted up with those elegant and convenient chandeliers, and other beautiful gas fixtures, which add so much to the appearance of such places, and to the comfort of the home circle, and which, heretofore, could be used only in those favored districts embraced within the coal gas limits of large

districts embraces and advertisement precludes the insertion here of the numerous testimonials of approval we have received from all quarters. Suffice it to say, scientific men and others who have examined and thoroughly tested the merits of the Vesper Gas light, pronounce it the best and cheapest artificial light now mown.

1. It may be used equally well with hard or soft wa-

SPRING GOODS!

Between Fourth and Fifth,

LOUISVILLE, Ky.

2. It requires but half the quantity required of other Soap to accomplish the same object.

3. Clothes need no boiling and but little rubbing, thus avoiding their wear upon a washboard.

4. It requires less than one half the time and labor to do the washing of a family that it requires with the best family soap; it tends to set the colors, and does not injure the fabric.

5. It is unsurpassed for cleaning Paints, and removing Tar, Grease, and Printers' Ink.

6. One pound will go as far for any use as three pounds of Common Rosin Soap, or two pounds of best Family Soaps.

Machinists, Printers and Painters, will find it an invaluable article for washing hands, as it does not chapbut softensthe skin.

These symptoms, if allowed to go on—which this medicine invariably removes—soon follows LOSS OF POW-ER, FATUITY, AND EPILEPTIO FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—INSANITY AND CONSUMPTION? The records of the INSANE ASYLUMS, and the melancholy deaths by CONSUMPTION, hear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth nor Grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

"With world measures was described." The above Soap can be had in any quantity from Mr. Peter Smith, Flour Dealer, Louisville, Ky., Main street lear First, or from the manufacturers,

Mone hundred dollars will be paid to any physician who can prove that the Medicine ever injured a Patient; and the testimony of thousands can be produced to prove that it does great good. Cases from one week to thirteen years' standing have been effected. The mass of VOLUNTARY TESTIMONY in possession of the Proprietor, vouching its virtues and curative powers, is immense, embracing names well known to LYON'S MAGNETIC POWDERS,

Will destroy Garden Insects, Cockroaches, BedBugs, Fleas Anis Moths, and all pests
of the vormin kind.

The importance of a reliable article of this kind is inestimable. In warm weather all nature teems with these
annoying foes. This powder is the only article ever discovered which will exterminate them. A company of
botanists, from the Hortleultural Society of Paris, while
amidst the ferns of Asia, observed that all insects lighting upon a certain kind of plant very soon dropped dead.
This fact was made use of to guard their night camps
from these intruders. Quantities of the plant were
broughthome by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of age
and climate. Medals and Letters Fattent have been obtained from the Governments of England, France, Germany, and Russla, from the World's Fair, and numerous medical and hortloultural colleges, and societies.

FALLS NAVIGABLE - TRIBUTARIES FLOODED THE RIVER is rising quite fast, with fully 8 feet water on the falls for steambeats last evening. In the canal there was 11 feet water by the mark, the canal there was 11 feet water by the mark, which is a rise of 2 feet in the preceding 24 hours. This makes the falls again navigable for large boats. The weather was clear and quite cool all day, with some fears of frost last night, and if it was cold enough for frost the fruit will assuredly be killed. The night, or rather the morning previous, there was a good deal of heavy rain, followed by a tremendous storm of wind, which happily did not do much damage.

The river at Cincinnati yesterday had risen 3 feet with heavy rains the night previous at Pittsfeet with heavy rains the night previous at Pittsfeet with heavy rains the night previous at Pitts-

feet, with heavy rains the night previous at Pitts-burgh, with 11 feet in the channel.

The officers of the mail boat report Kentucky river again rising, and all the Northern tributa-ries are reported at full tide from the effects of the late rains. By passengers by railroad, we learn that the Wabash was at flood height, and learn that the Wabash was at flood height, and over its banks at Vincennes, and much damage and delay expected on the line of railroads by the flood. The White river was also reported unusually high, and rising all along its course.

The Cumberland and Tennessee, at the last advices, though very high, were falling fast.

The storm, night before last, knocked the boats in port at a fearful rate, and the Frances.

The storm, night before last, knocked the boats about in port at a fearful rate, and the Empress, along side of Sand island, at Portland, was torn from her moorings, and blown up-stream a good distance on the bar.

The flood in the lower Mississippi, instead of being exaggerated, has not been fully estimated. From the officers of the Pacific, from New Orieans, we learn that the river, at Vicksburg, was estimated at nine inches higher than the flood of last year, and 6½ inches higher than ever was known in that vicinity. At Natchez the river was swelling slowly, and was 2 inches higher than last year. At island 100 it was fully 8 inches higher than the flood of last year, with the river actually than the flood of last year, with the river actually over its natural banks at all the level shores, ex-tending some distance up the levees, with fears expressed that stormy weather and a rough river would break the levees in hundreds of places, and work more ruin than over was known. In addiion to this, the inroads of the crawfish along the tion to this, the invoses of the crawlish along the levees have been fearful, making them crumble and disappear, in places where, on the surface, they appeared perfectly sound and strong. The river above Memphis was falling pretty fast, having receded at that point from 18 inches to 2 feet, and the Arkansas river reported

low and falling at the last dates. The planters along the lower river have now had two consecu-tive seasons of overflow, which will prove highly disastrous to their crop prospects, if it does not prevent them from planting altogether. At present it is unprofitable to the steamboat trade, as our packets are unable to take freights to plantitions there believe no landing planting. s, there being no landing place to be found. Frem New York. New York, April 14.—The Courier des Etats Unis gives a long statement of the loss of the ship St. Paul, and the massacre of 330 persons on board, both sailors and passengers. The St. Paul belongs to Havre, and was making at the time of her loss, a voyage from China to Australia, with a load of Chinese emigrants. The vessel was lost on one of the numerous islands of the Louisade

Archepilago.

The wreck took place on the 11th of September but the passengers escaped from the peril, and an English vessel was hailed. It was too small to carry away all the unfortunates, and 330 were left till word was taken to Sidney, and another vessel was sent to their relief. This relief expedition arrived at the place in December or January, and found of the 330 individuals, that but one Chinaman had been saved, all the others having been massacred by the savages, amid the mos cruel tortures.

drawing of the Capital Prize, wasking in all 25,366 Prizes.

The numbers from 1 to 50000, corresponding with the numbers on the tickets, printed on separate slips of paper, are rolled up and eneircied with small tin tubes, and placed in a Glass Wheel.

The amounts of the different 153 full Prizes, similarly printed and encircled, are placed in another wheel. After revolving the wheels, a number is drawn from the wheel of numbers, and at the same time a Prize is drawn from the other wheel by boys who are blindfolded. The number and the Prize drawn out are opened and exhibited to the audience and registered by the Commissioner, the Prize being placed against the number drawn. This operation is repeated until all the Prizes are drawn out. The drawing is then printed, and after comparison, the Commissioner certifies to its correctness. The 25,000 Prizes of \$5 each, are determined by the number which draws the highest Capital Prize, (\$50,000.) If the number should be an odd number, then every odd number ticket will be cnittled to \$5. If an even number, then every even number ticket will be entitled to \$5, in addition to any other prize which a Ticket may be entitled to.
